

In addition to the river valley now and
most definitely partitive of those important
and sensitive areas also as subsistence

1. our writing + oppose ACTE's plan to increase
disinfectant wastes storage in the central factory by
leasing existing tanks or building new off-tanks
opposed water efficiency, decentralization, and
separate sectors. I urge ACTE to
recall all their previous statements, to reaffirm our existing
water policies, instead of building new dams
and canals. This could be done by utilizing
the hydro power less water consumptive crops
and by installing water meters for all agricultural
and industrial users.

to these issues, including removing some facilities such as Eaglebright dam, that acts as barriers to migrating salmon, acquiring important riparian habitat, and increasing instream flows for fish, wildlife and recreation.

I would appreciate a response for this letter.

Thanks.

Sincerely,

HADI RAZZAGHI
